“Evolution of Hemorrhage Control from Leather Straps to Endovascular Aortic Occlusion”

Adam David Lichtman, M.D.

Associate Professor of Clinical Anesthesiology
Department of Anesthesiology
Weill Cornell Medicine, New York, NY
Location: Weill Cornell Medical College Conference Room A-950

May 27, 2019

No Grand Rounds in observance of Memorial Day

Target Audience: Weill-Cornell physicians in Anesthesiology, other interested physicians and health care providers, and students.

Course Objectives: This CME activity is intended to lead to improved patient care and safety based upon an assessment of gaps in physician knowledge, competence and performance. By the conclusion of this series, physicians should learn new content relevant to their practice that informs and thereby improves the clinical care they provide.
